Literally Arcadia is a group of buildings which have been erected to serve as a place of education. Well over two thousand people spend the majority of days for nine months on its campus. Why do they come? What is the result of their presence? Are the separate experiences of each day related?

Arcadia is a challenge. By virtue of simply attending it, every student finds himself in numerous situations which call for decisions and actions on his part. Consider what that includes. In addition to the study habits and classroom attitudes of each individual, it includes the perhaps larger area of associations outside the classroom in non-academic activities.

Habits formed now give a good indication of your future life. You are in the process of forming a personality, but remember a good portion of the individual to come has already been established. It is worthwhile to consider traits already acquired, in order to understand the capabilities now in your possession and their worth as concerns an adequate future.

Your every action reflects your every thought. Take time to really remember all the experiences and relationships of this year. Why did you become involved in them? What did you contribute to the situations? How did these experiences, collectively, affect you?

Accept another challenge. Answer these questions honestly. You'll not only know what Arcadia is, but what you are as well.

Gwen

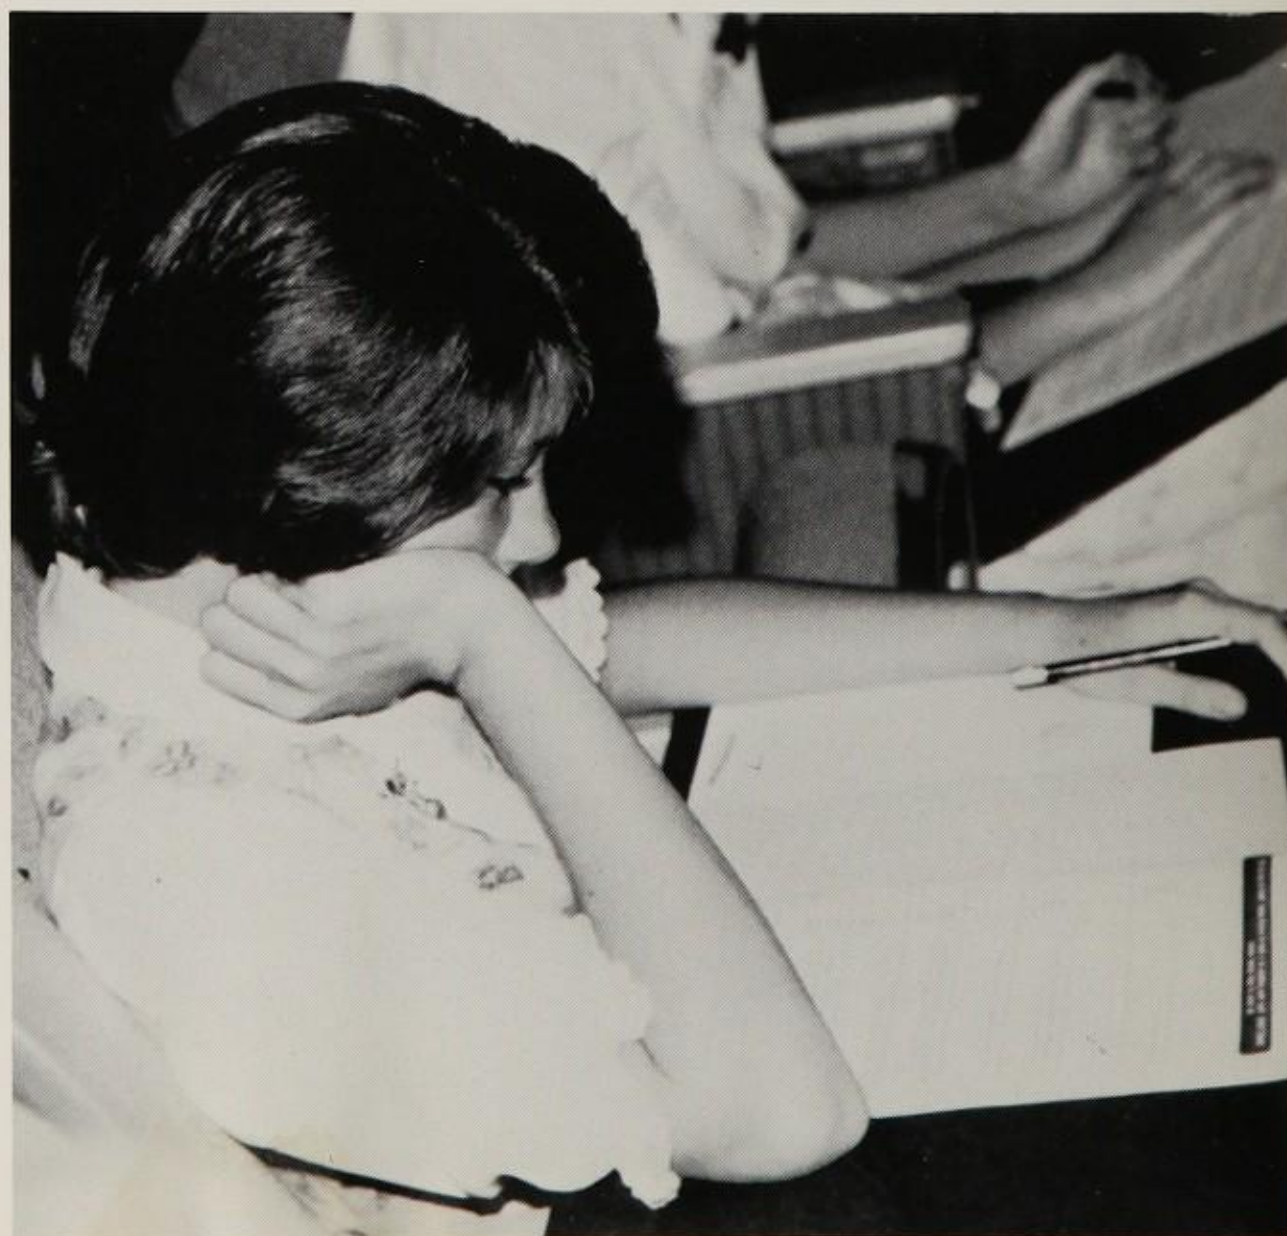

Challenge

Long hours of practice plus maximum effort on the playing field were demanded of those who took an active part in Arcadia's extracurricular athletic program.

Concentration

In addition to regular classroom studies, students occasionally tested their brains in one of the testing programs authorized by the guidance department. Such aptitude and evaluation tests help teachers, parents and students themselves gain better understanding of the capacity of each individual.

Arcadia's beautiful campus creates an atmosphere of relaxation which makes learning easier. The unique and artistic architectural design makes a lasting impression on those who see it.

Celebrities

Reverend Humphrey (Andy Owen), Sargent Towers (Chip Parker), Reverend Toop (Art Piccinati), and the Bishop of Lax (Wayne Green) prepare to send for help in a scene from the first production of the year, "See How They Run."

Couples

Couples are a familiar sight on every high school campus for at this time mature relationships are begun. Above are Alan Babinski and Patty Verhoeven.

Clowning

Comedy skits were a favorite part of the pep assemblies. Here Randy Wright and Susan Tonner show how the Titan always wins.

Chatter

Lunchtimes were spent in a hurried combination of eating and discussing. Topics ranged from school policies to international policies. At left are John Chapman, Alan Babinski, Bruce Baker, Milas Kennington and Chris Pischke.

Cooperation

Producing a newspaper involves hard work and often more hours than the school day provides. At left Diane Propstra, John Barry and Carol Haugeland "paste up" during one of their evening sessions.

Below, Judy Alexander displays her high kicking talent during one of the routines originated and presented by the pom-pom girls.

Congratulations

Sue Ellen Cowie watches intently as Homecoming Royalty, Micki McFadden and Tom Farmer, exchange congratulations. Even the drenching rain of the evening failed to dampen the spirits of the proud pair.

Coordinator

Mr. Scharf served as liaison officer between the administration and the students. Above, he confers with Art Piccinati, student body president.

Your fleeting thoughts give the spark of remembrance to hundreds of related memories. One picture or word suggests scores of others to the imagination. A yearbook supposedly records the story of the year, but to do so in so few pages is impossible. It can, however, touch upon enough parts of the story to enable the reader to construct the imagery of unmentioned portions.

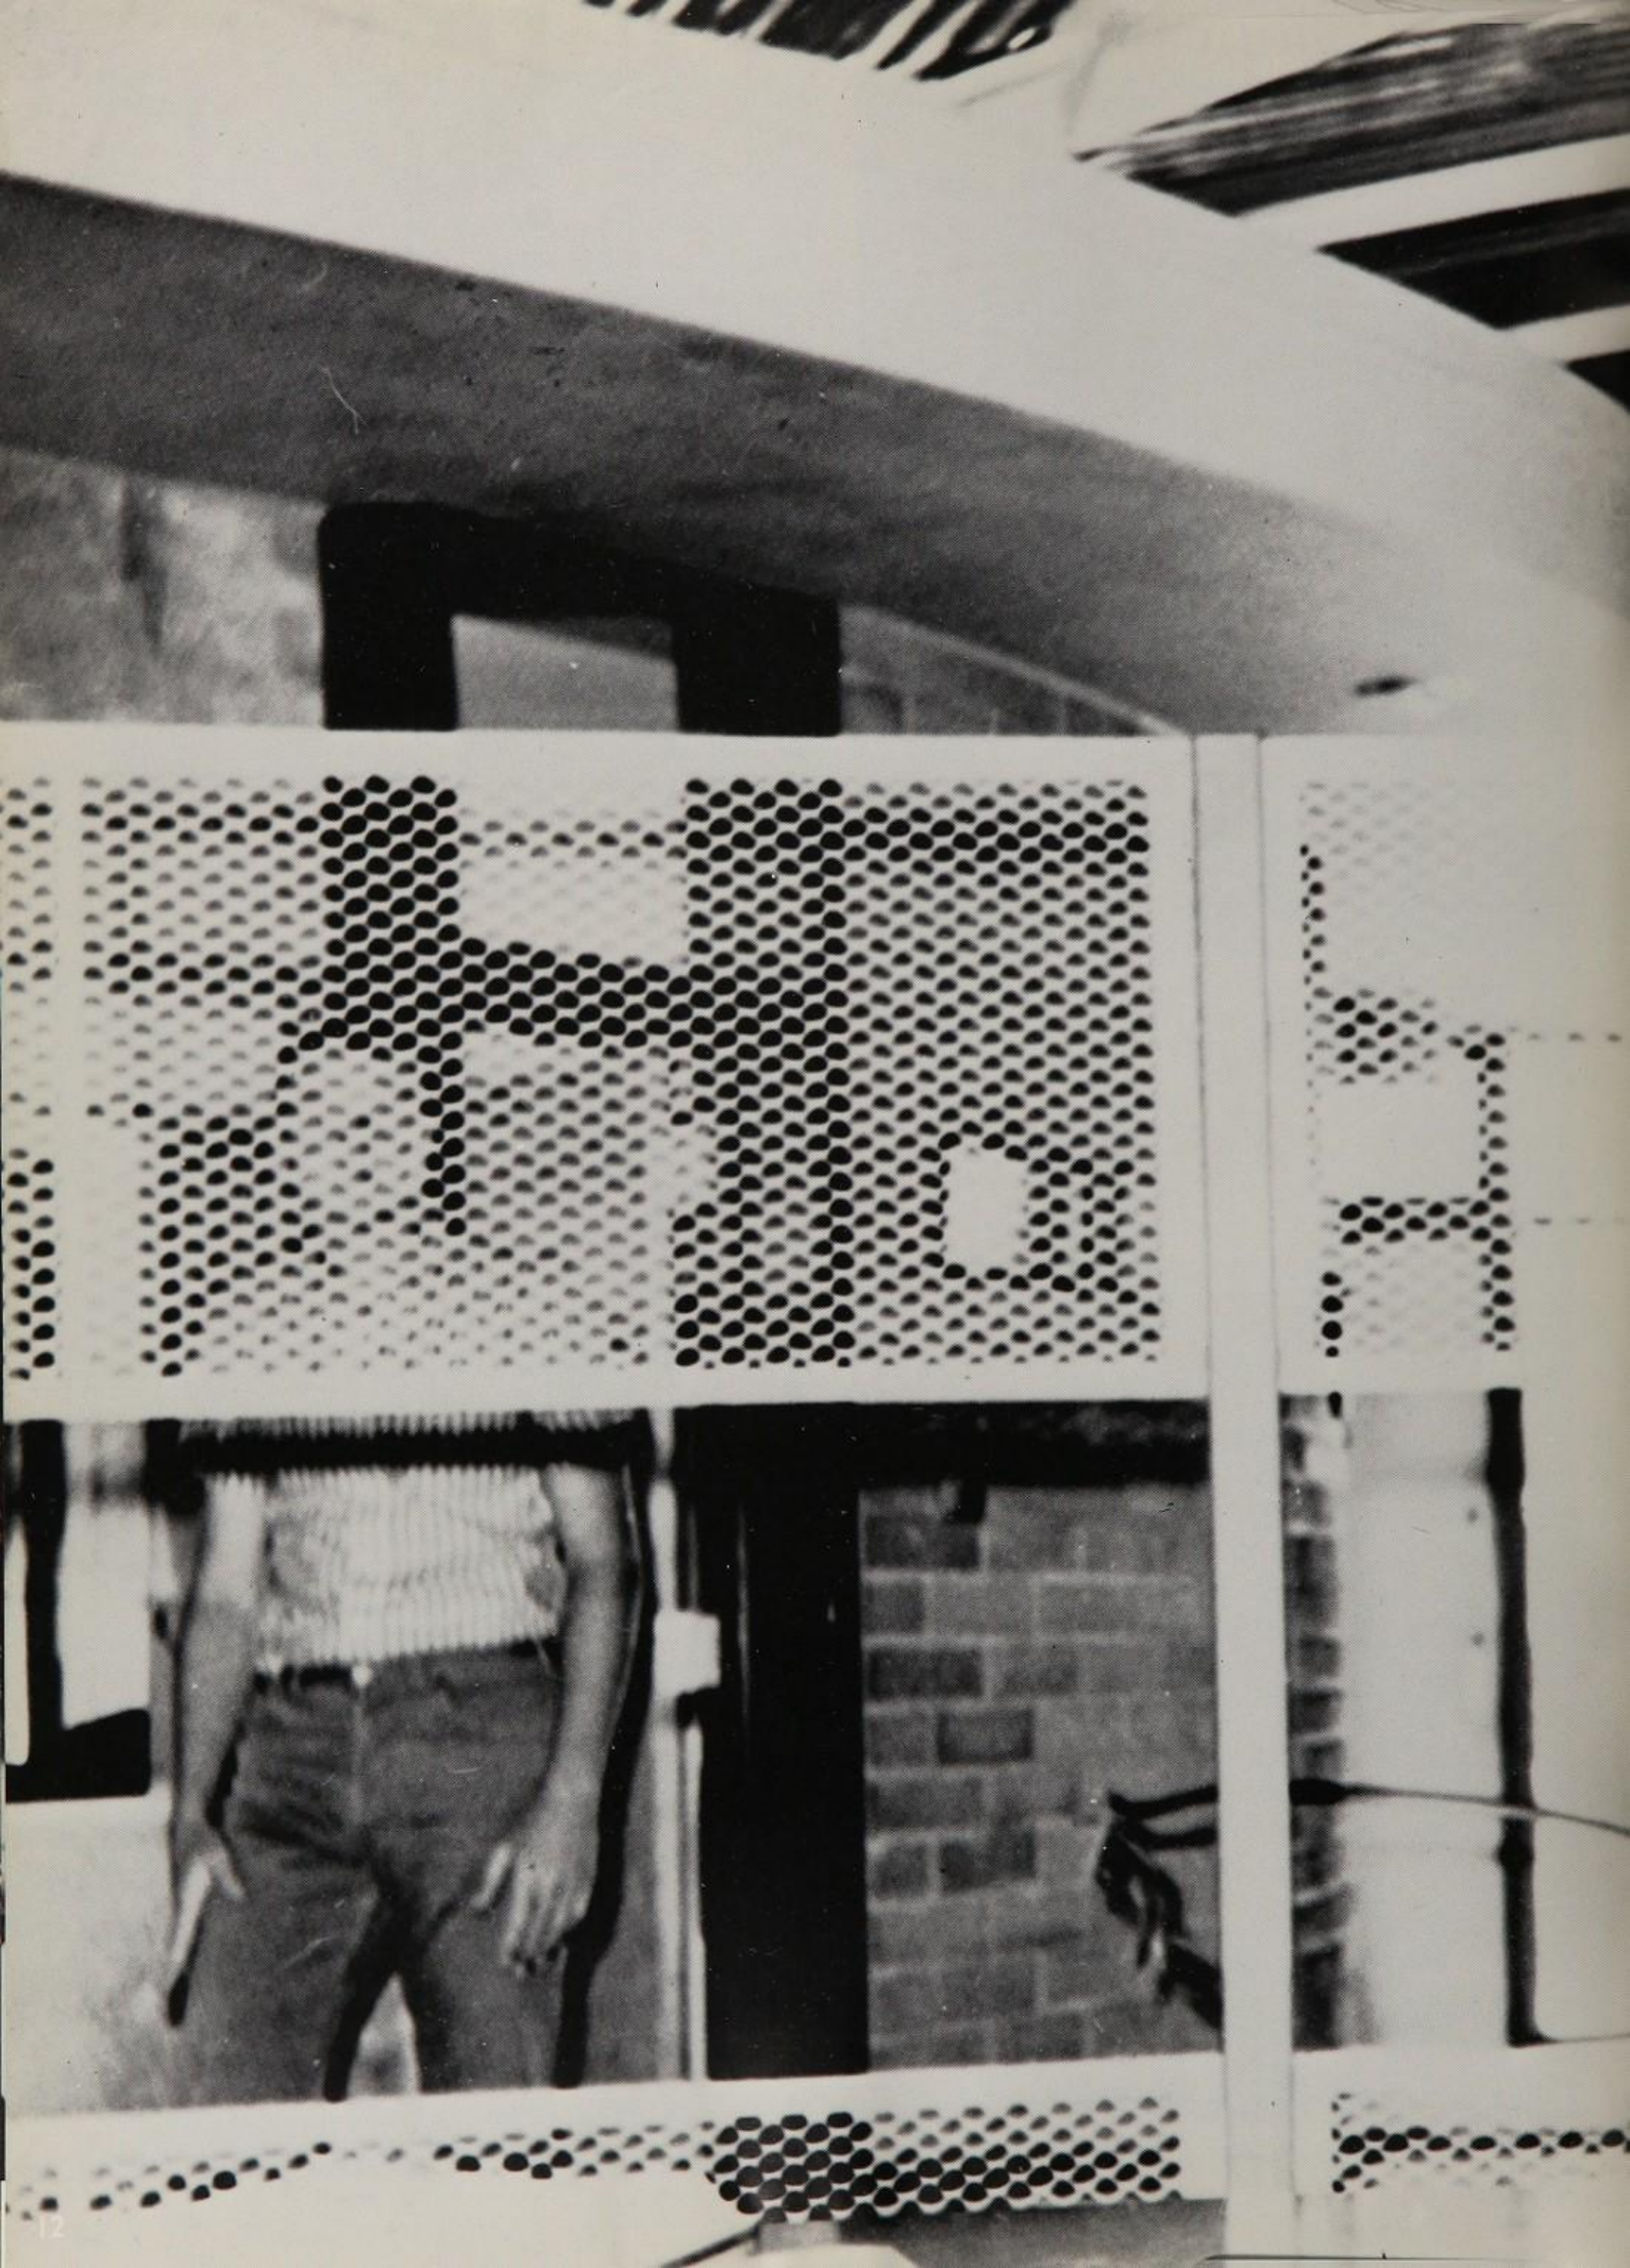

This book is a puzzle each reader should attempt to work. An event may be pictured, but only in the mind of each individual lies the emotion which best describes and completes the image. No two completed puzzles are alike, but each holds truth.

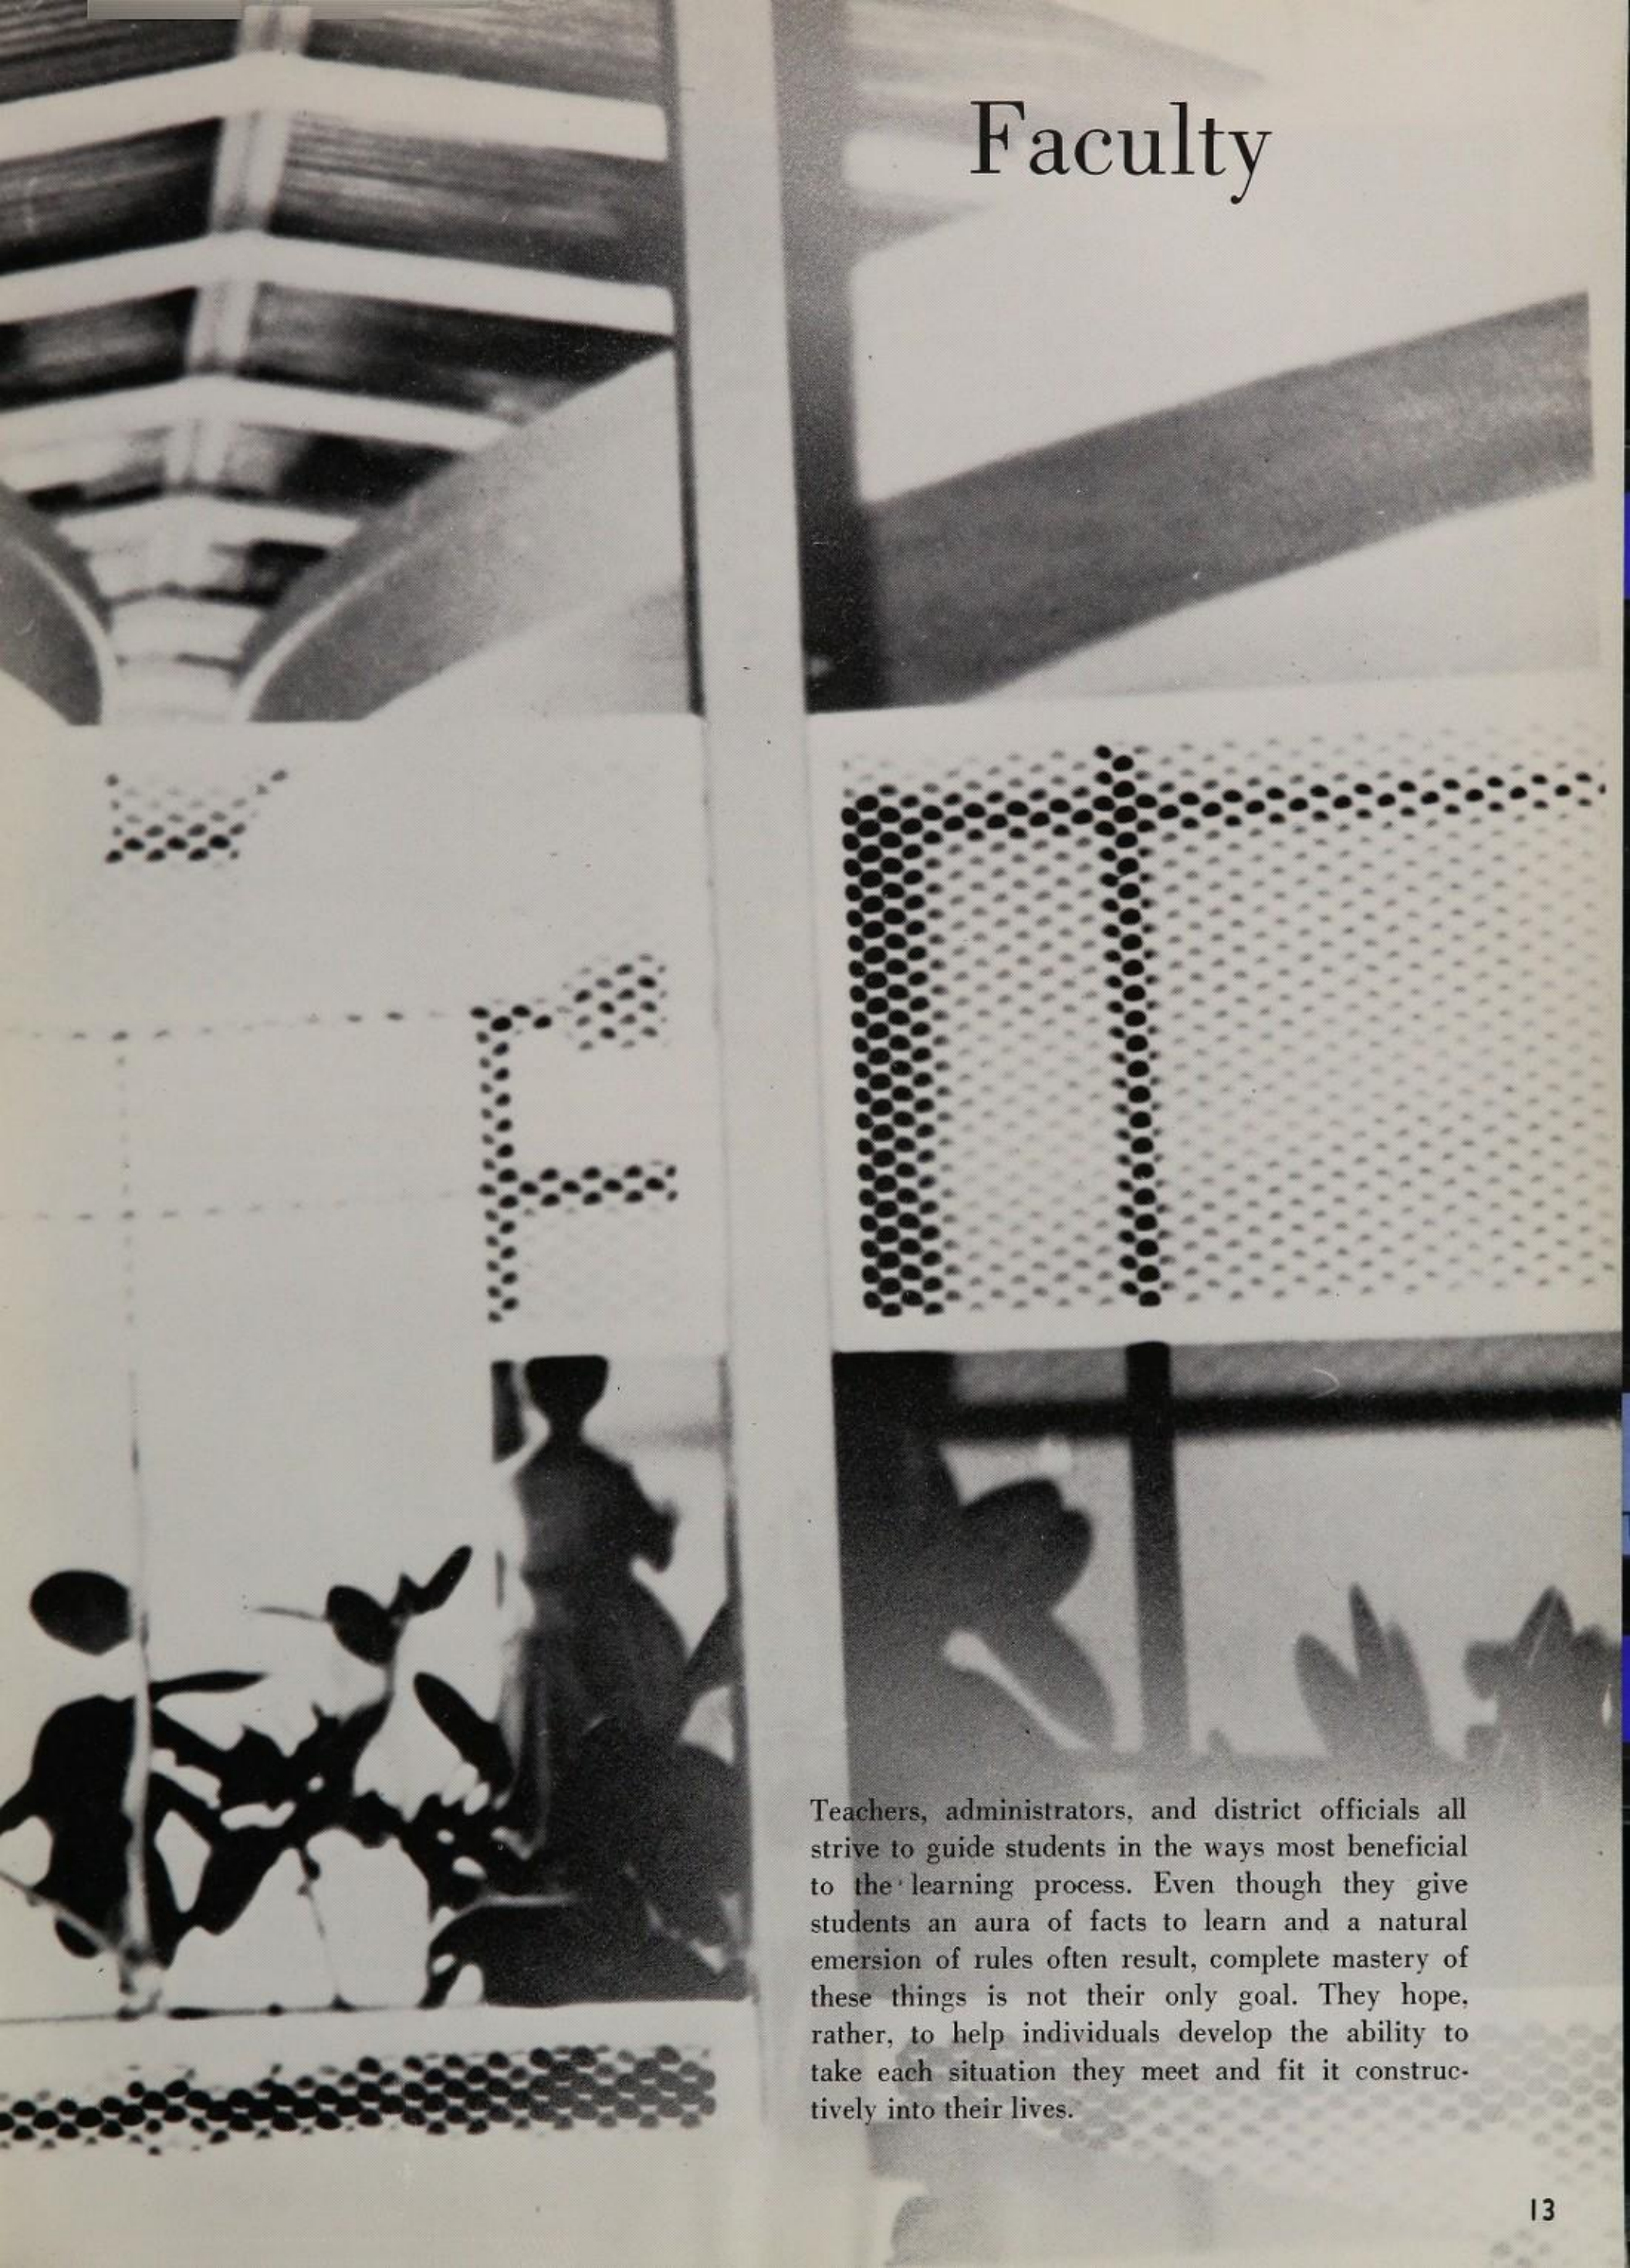

Arcadia is a challenge: a challenge to identify and participate in truth.

Classroom

Teaching effectively in crowded conditions is a problem common to all departments. Above, business students work at mastering typing skills.

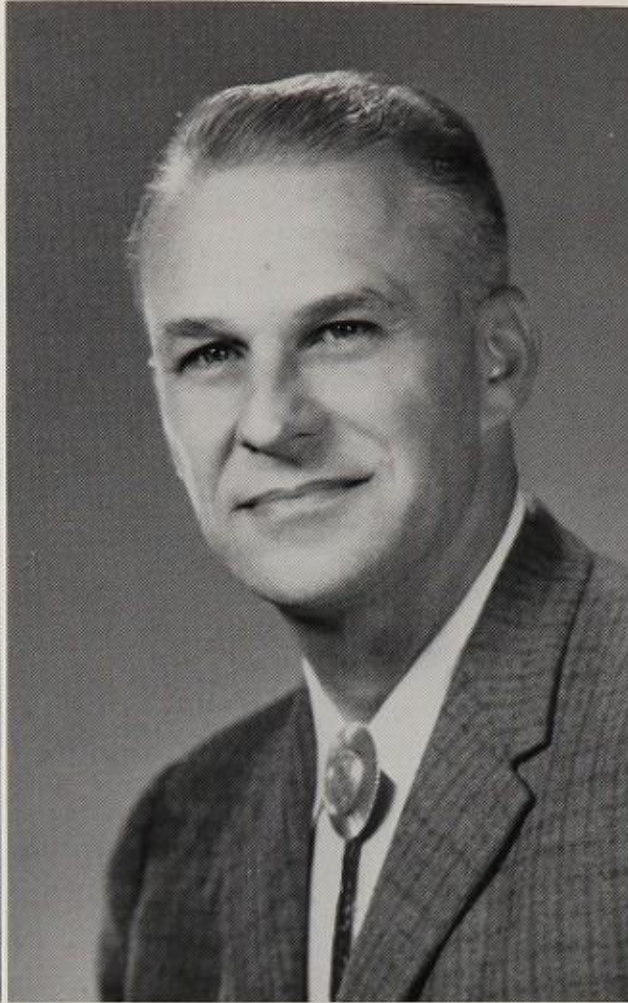

Faculty

Teachers, administrators, and district officials all strive to guide students in the ways most beneficial to the learning process. Even though they give students an aura of facts to learn and a natural emersion of rules often result, complete mastery of these things is not their only goal. They hope, rather, to help individuals develop the ability to take each situation they meet and fit it constructively into their lives.

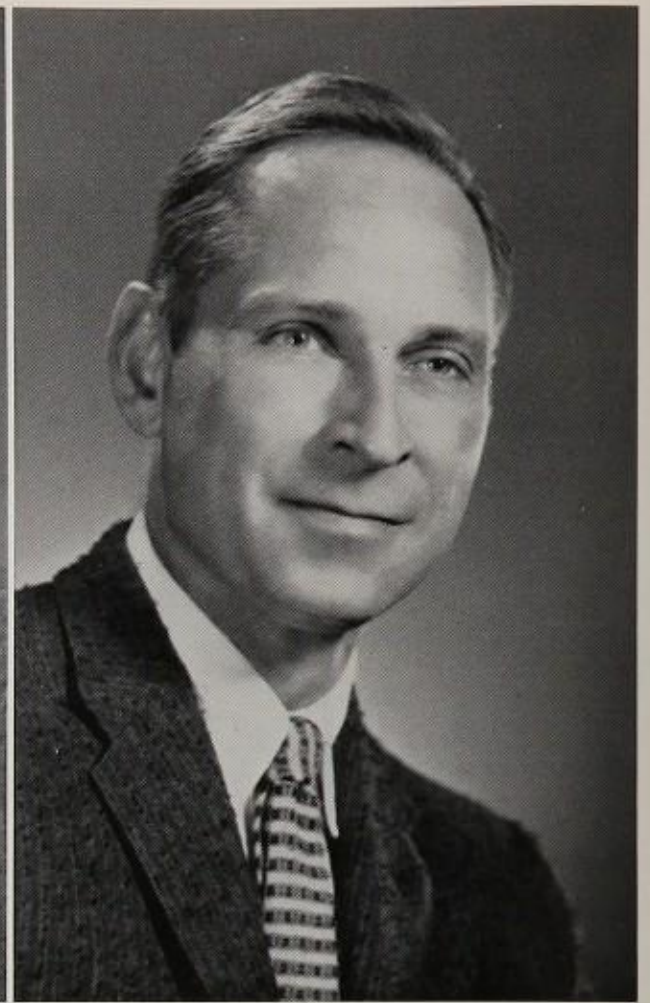

School Board Sets New Policies

DR. CHARLES HOLT,
SUPERINTENDENT OF SCHOOLS

MR. BILL CLOSE

DR. STEWARD S. FLASCHEN

The Scottsdale School Board serves jointly as a board of trustees and a board of education. Both Scottsdale elementary and high schools fall under its jurisdiction. Consisting of five members, it meets frequently to debate and issue decisions on major problems facing the Scottsdale educational system.

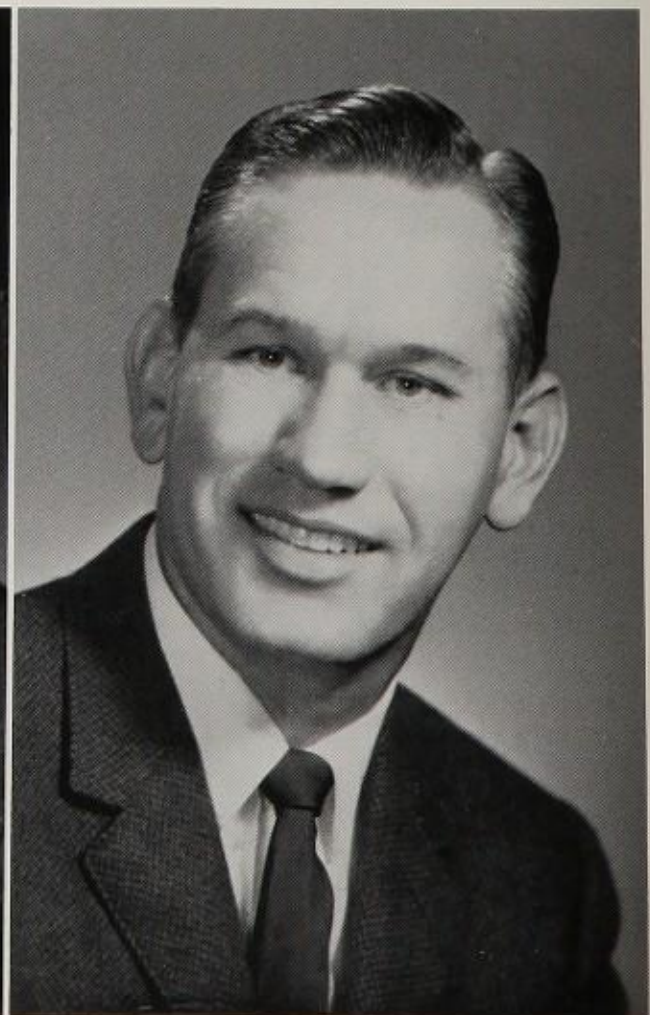

Their responsibilities are many and great. They control employment and dismissal of administrators, teachers, and other personnel; they issue building contracts and arrange for adequate teaching facilities. Their largest area, however, is the determining of policy.

MR. JACKSON DRAKE, *PRINCIPAL*

The administration of Arcadia High School is headed by the principal, Mr. Jackson Drake. He is assisted by Mr. Al Scharf, assistant principal for student services, and Mr. Leonard Spooner, assistant principal for educational services. Mr. Drake and Mr. Scharf are newcomers to Arcadia this year.

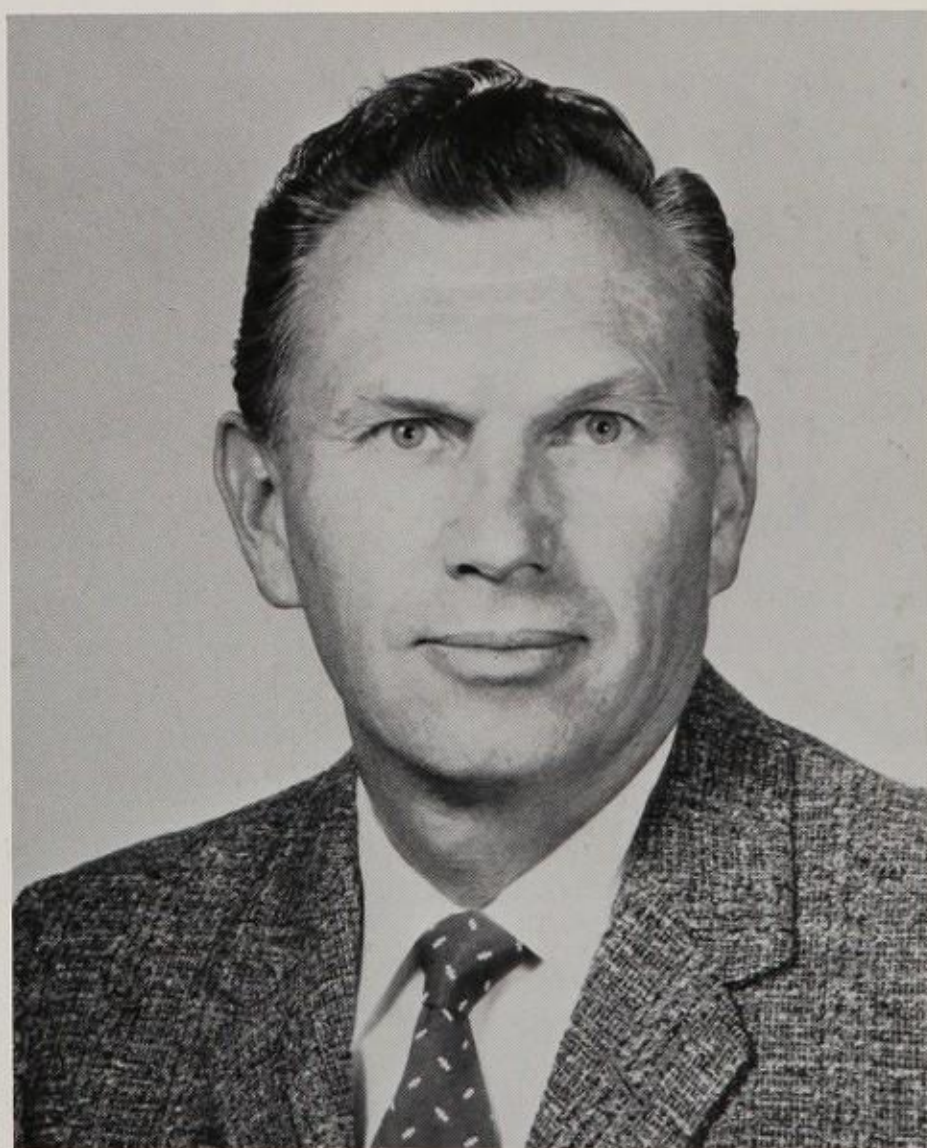

The principal has general responsibility in all areas of administration, deals with matters of school policy, public relations, and faculty supervision. His primary concern is directed toward curriculum planning.

The assistant principal for student services is in charge of the bookstore, health services, assemblies, school activity calendar, major discipline problems, and student council.

Responsibility for academic records, registration, schedule changes, curriculum, and guidance services falls to the assistant principal for educational services.

Arcadia's guidance services are associated with all aspects of the total instructional program and dedicated to learning and the general welfare of the students. The staff of five counselors assist all students, including incoming freshmen, in ascertaining and determining their interests, goals, and potentials through individual counseling. After studying and analyzing all available data, they strive to guide each student in realizing his full potential.

Judy Topolosky and her counselor, Mr. Webb, examine possibilities in curriculum choice. Judy, a junior, is interested in having all the prerequisites she needs to enter the college of her choice.

WILLIAM M. BALTZ

GORDON G. CASWELL

"Instilling an intelligent and analytical patriotism in our students" is one of the major objectives of the Social Studies Department, says chairman Mr. Bob Finkbine. Other goals involve arousing an understanding and an interest in the heritage of our nation. In an attempt to approach social studies in a broad and varied manner, many activities are planned for the classes. These include debating, writing poetry and essays, using radio and televi-

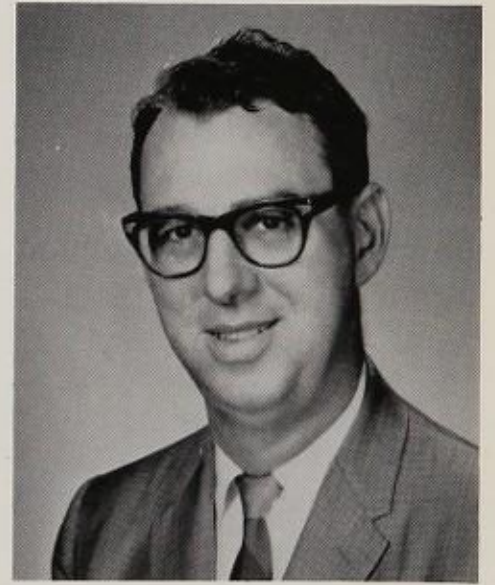

sion, doing research projects and listening to guest speakers. American government, economics, and American history are the courses each student must face in his high school career. Elective courses offered include world history and geography. By making students aware of their duties and responsibilities, the Social Studies Department hopes to see the development of more useful citizens.

"A person is what he can express. Words essentially make up one's personality," states Mr. Joseph Collignon, chairman of the English Department. The areas included in Arcadia's English program, English, speech and journalism, strive to teach the basics of communications. Basic English courses are arranged in a graduated scale of correlated classes. Usually the student starts as a freshman

taking English II and continues through English V. This provides a comprehensive study of all basic subject matter and prevents needless repetition. Speech is geared at improving the students' techniques of verbal communication. The journalists are responsible for the production of the school's newspaper, "The Arcadian," and yearbook, "The Olympian."

Due to overcrowded conditions, English classes were forced to study in the journalism room. Above are Frank Ziska, Mary Martin and JaDeanne Montgomery.

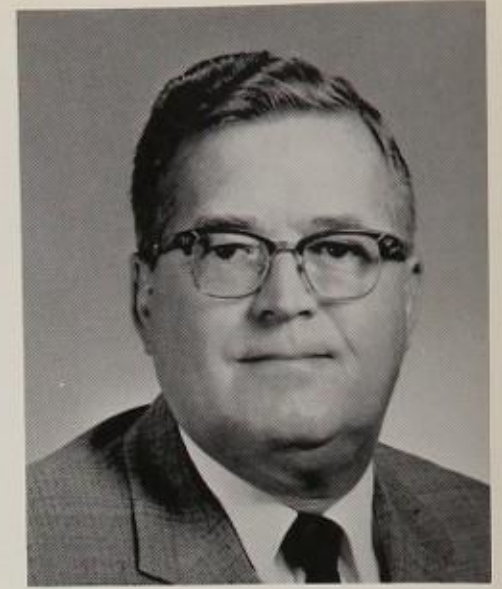

Mathematics Essential To Everyone

DOROTHY CAHILL

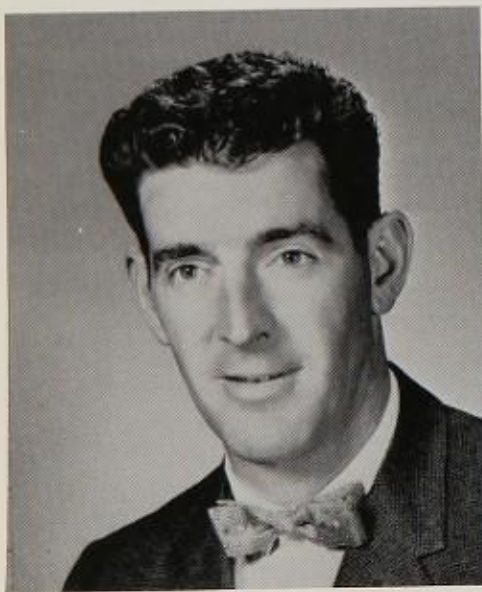

SHIRLEY FRYE

MALCOLM A. GARRISON

"High school mathematics is considered basic training for many occupations today," states Mr. Jeff Larson, head of the Mathematics Department. The essentials of math are needed in any approach one chooses to take to life. Arcadia's program is geared to benefit prospective salesgirls, businessmen, and housewives, but also it provides plenty of challenge for the serious mathematician. One year is required for graduation, but ninety per cent of the students choose to go on to more advanced courses. Classes

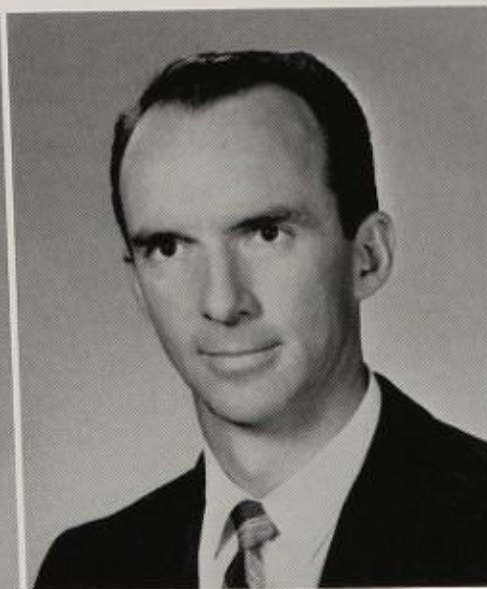

include algebra, algebra II, advanced algebra, geometry, trigonometry, analytical geometry and calculus. Classes are also organized to employ remedial, average, and accelerated approaches to the subject matter. Students are placed in classes after careful consideration of their aptitude, industry and interest in the field of mathematics. This is to insure that each individual student receives maximum benefit from his math program.

"Knowledge is useless . . . unless we develop the self-confidence to put it to use." Development of this self-confidence is the basic reason for the allied arts program according to Mrs. Dana Lynch, dramatics instructor. Activation of much real talent is at least a notable by-product. Student participation is based on interest in the available fields of study—art, crafts, drama, vocal and instrumental music. Individually and collectively the groups exhibit their skills in public performances throughout the year.

Audio-Lingual Approach Tried

MAURICE GARSON

ROBERT R. GIBBONS

"You cannot understand the motives or actions of a country without being able to speak the language," says Mr. Alfred Heywood, chairman of the Foreign Language Department. The importance of intercultural exchange is the philosophy governing the department. The audio-lingual approach was used in the Spanish classes. This involves imitating sounds and patterns heard, instead of seeing the written word. The technique enables the student to learn to think in the foreign language instead of English. Along with four years of Spanish, the department offers four courses in French, Latin, and German.

Four Courses Offered In Home Ec

EDITH LILLYWHITE

CECELIA M. WITTY

"Statistics say that a girl who graduates from high school today will be employed 25 years of her life." This statement was made by Mrs. Cecelia Witty, home economics teacher. These statistics form the basis for a new philosophy in the teaching of home ec. The stress today is on home management, not development of skill. Arcadia girls may elect from four courses offered by the department. Homemaking I, specialization in foods or clothing, and human relations. The latter places emphasis on understanding of self and others in order to develop the art of "getting along," and thus insure greater satisfaction from life.

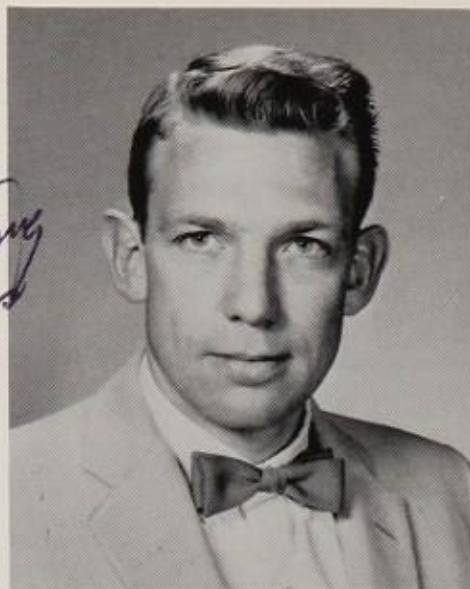

Janet Reis completes one of her cooking assignments for homemaking class.

Wide Diversity Offered In Science

"Arcadia has one of the best advanced science departments in the state," says Mr. Baxter Hurn, head of the Science Department. We have well qualified teachers, a wide range of subject choices, and are attempting to increase laboratory facilities.

Freshmen are required to take a science, but the department offers many classes including thirty of biology (three types), eleven of chemistry (four types), six of physics (three types), and two of astronomy and geology.

Dave Williams examines the heavens with one of the telescopes obtained by the Science Department this year.

New Machines Aid Business Skills

PETER R. ANSELMO

NATALIE HAHN

"Our courses provide the two-fold advantage of personal and professional application." Because of this, Mrs. Howard feels the Business Education Department, which she heads, has practical knowledge to offer every student. Subjects included within the field focus on business aspects ranging from basic principles to acquiring skill on a wide range of machines. This year a new IBM electric typewriter, a printing calculator, and a system of team teaching assisted in the presentation of subject matter.

"Any driver is eligible to become an instrument of death," says Mr. Howard Amerson, chairman of the Safety Education Department. In order to avoid a fatal mistake while driving, the department offers students the opportunity to become more skilled and better acquainted with their cars and the state laws. Three new Plymouths are available to students for behind-the-wheel practice. Driving is done before and after regular school hours. "Shock films," reaction, glare recovery, and depth perception tests are all used in this program aimed at developing responsibility, and promoting safety among drivers.

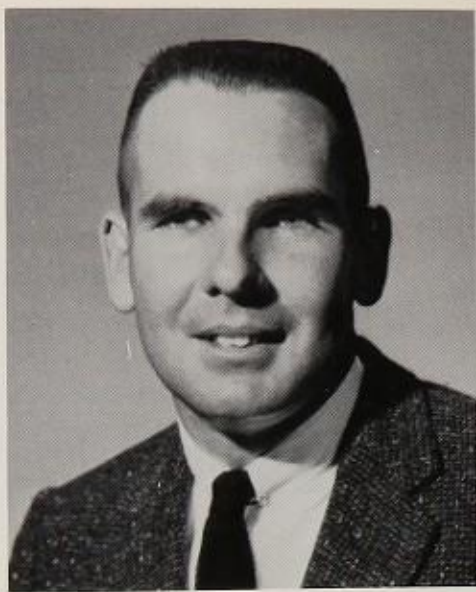

Pam Draney becomes acquainted with driving techniques in one of the new Plymouth training cars.

BOB HENDRICKS,

VIRGINIA SLOBODNIK

"The mind and the body are essentially one. Both must be developed," states Mr. Bob Hendricks, head of the physical education department. This need for physical as well as intellectual development forms the foundation of the program. In addition to body development, the staff attempts to acquaint the students with a variety of activities which will open an avenue for leisure time. Staff members also coach the interscholastic teams, pom-pom girls and cheerleaders. These are a type of accelerated activity for the talented few in this area.

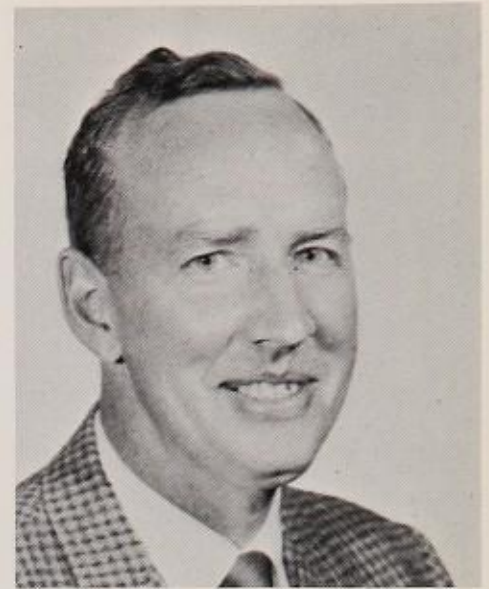

Creativity Goal Of Industrial Arts

JIM MULLER,
CHAIRMAN

WALTER TAMASAUCKAS

ROLAND WILLIAMS

"We're operating a creative, experimental laboratory, not a glorified repair shop," asserts Mr. Williams of the Industrial Arts Department. Besides teaching the principles of construction and design emphasis is placed on increasing consumer knowledge, developing practical abilities in electronics,

and in use and maintenance of common tools. The industrial arts field is a proving ground for application of knowledge in all fields. Courses of study include woodworking I, II, and III, in addition to mechanical drawing I and II.

Ken Scheitlin uses one of the modern electric tools employed by the Industrial Arts Department.

ARCADIANS. These are the people who give a label attached to a group of buildings significance. Singly they are individuals; collectively they are students. In both capacities they share a common existence while trying to gain an education. Yet, probably no two of them are alike or even greatly similar. The meaning and achievements in his high school experience are what each person determines acceptable for himself.

Organizations

A sense of belonging, an opportunity to participate, to make useful contributions, and to develop skills and talents are a part of the assets enjoyed by those who choose to identify themselves with the various clubs and organizations at Arcadia. Such groups help to bring about closer relationships and greater sharing of ideas than are possible in the classroom.

Student Senate Affiliates

STUDENT BODY OFFICERS . . .

Robyn Houston, vice-president; Toni Wanic, treasurer; Art Piccinati, president; Nancy McLeod, corresponding secretary; Elaine Ong, recording secretary.

Student council started off the year with bang by sponsoring the freshmen elections, organizing pep assemblies complete with skits, reorganizing Student Council, and developing the club council. The existence of the Club Council meant better communication between campus clubs and the student leaders, more activities and better participation. Four new standing committees were formed as a result of the reorganization with the boy and girl council representatives serving as chairmen. The Activities committee, headed by Tom Farmer and Susie Tonner, was re-

sponsible for assemblies, the carnival, and pep rallies. Unity and Spirit, governed by Alexis Karales and Chuck James, concerned itself mainly with promoting school spirit by planning pre-game rallies and skits. Judie Rummage and Craig Stromme led the Public Relations committee that was responsible for all newspaper publicity for the school. Student body and class elections were the concern of the Inter-Club, Inter-Class committee headed by Andy Ambrose and Sharon Lillmars.

Student Senate celebrated its second year in existence at Arcadia. Each second period class elects a representative to this body. These representatives are to be spokesmen for the students to the student council and to the administration. Robyn Houston, vice-president of the student body, serves as President of the Senate.

Other officers elected by the senate are Tuck Stephenson, vice-president; Carol Haugeland, recording secretary; Mike McNamara, treasurer; Susie Lindner, chaplain; and Diane Propstra, corresponding secretary.

Every other Wednesday night meant long hours of work for members of The Arcadian staff in their "paste up" sessions. After this last session of writing, running off headlines, choosing pictures and arranging them all, the pages go to Davis Litho for offset printing. One of the biggest features of the bi-monthly publication was the Save Camelback Mountain Campaign in which Arcadia invited any other school interested to join in preparing petitions against building homes high on the mountain. More than 15 schools presented petitions bearing more than 11,000 names to the Arizona State Legislature in February. Among the other special projects by the staff were publication of a 32-page Christmas issue and the yearbook supplement.

Arcadian editor, Shari Hume, and advisor, Mrs. Hinsdale, working together during paste-up.

Editor Dianne Brock and Sponsor Mrs. Logan work with Tan Miller in planning the activities section.

"Where is that group picture? Now I know I just had it! Who has my crayon?"

Confusion? This is sheer bedlam according to staff members. Throughout the year, these 12 journalists worked meeting deadlines to produce the Titan yearbook, the Olympian. This year's editor, Dianne Brock, was responsible for all final proofreading, layout designs and picture selections. Andy Owen and Barb Frederick worked as layout and copy editors respectively. Responsibility for taking, developing and printing of yearbook pictures fell to John and Jim Chapman. Business matters were handled by Terry Gamble for the second year in a row.

Pom-Pon girls changed their uniforms and worked up hard routines for some of the basketball games. Above are Sue Orth, Judy Alexander, and Linda Scranton.

Arcadia's halftime ceremonies focused mainly upon the dancing of the Pom-Pon Girls. The steps were made up and arranged by the girls themselves. Various dancing involving character parts were the following: hillbillies, pert gentlemen with canes, and cowboys with gun-and-holster. For football games the girls marched onto the field with the Titan Band. Tryouts for the girls are held in the spring with teachers and other adults as judges.

The Arcadia Titan Band, directed by Reginald Brooks, has acquired a great name for itself throughout the year. During the football season the Titan Band provided pre-game or halftime entertainment, highlighted by the baton twirling routines of Miss Vaunda Hammett. The band not only was required to memorize all their music, but on occasion learned intricate dance steps to perform while they played. These steps added new spice to the music.

The band's activities didn't end with the football season. During the spring they held a concert that was appraised by all.

If you play an instrument and are interested in learning more techniques in regard to music, then the Junior Varsity Band is for you! In this class the students learned band literature and other useful skills between practicing for games and parades. They also held two concerts; one in January and the other in April. One of the main objectives of the course was preparing for the Titan Varsity Band.

The musical department at Arcadia offered a course for those students adapt at playing stringed instruments. The orchestra played at music assembly giving Titans music of a different quality. The course is a selective one, in that a student who wants to be considered for the course must audition so as to exhibit his knowledge of the scales, the keys, sight-reading, and rhythm.

Offering danceable music is the main objective of the Dance Band. This group participated in assemblies and provided music for plays. The dance band consists of brass and wind instruments, a piano, and a set of drums.

Mr. Woodard directs during a jayvee concert. He works with the 40-member group each day.

Concert Choir is one of the most outstanding choral groups in the school. This year was spent in a varied number of ways: there were assemblies and special concerts given, and many hours were spent to make this choral group an outstanding representative of AHS. All members have had one year of previous instruction.

What is the goal of all singers at AHS?—undoubtedly it is to become a member of the Arcadia Chorale. This group has acquired needed techniques for producing a concert of the highest quality. Their many activities include singing at three formal concerts, prominent organizations, and various school assemblies.

Arcadia's D.E.C.A. Club provided career-minded students with a chance to learn "the ropes" of better business. The participating students attended regular classes in the morning and held jobs in the afternoon. Mr. Sanders, the sponsor, and the officers, Barbara Gant, president; Barry King, vice-president; Mandy Marquart, secretary; and Stanley Hall, treasurer; said the program had given the members much more confidence when working with the public. Participating businesses included clothing stores, drug stores, cultural establishments, and grocery stores.

What is the Lettermen's Club? It is a unique club for score-minded male Titans. This club, largest all-boy club on campus, is constantly concerned with school spirit, school appearance, and school reputation. Their many activities included the annual initiation, the spring dance, the selling of game programs, and assistance at school functions. Of all the activities, initiation is the worst for new members. The wearing of crazy clothes and burlap underwear, the spankings in public, and the declaration of club loyalty upon request, all made initiates very uncomfortable.

Listen. Do you hear the sound of a thousand feet? No, of course not. It is the sound of cars. The Sports Car Club must be holding one of its events. It's too late for the Halloween Ralley, the Nite-Owl Ralley, or the Economy Run, so it must be either the Spring Ralley or the Easter Ralley. Here come the officers now: Walter Nash, president; Bill Drew, vice-president; and Mike Bartlett, secretary-treasurer. They say it's the Rod Rally and that this, like all other events, is valuable in experience and competition.

Frogs, worms, fish, or grasshoppers—what is it today? Actually more than dissection was covered in the Biology Club. One of the favorite club activities was traveling all over Arizona collecting specimens for examination. To be a member of this club, one must be a good biology student and must really enjoy biology. The club was led by Bill McNabb, president; Debbie Rice, vice-president; Marge Johnson, secretary; and Mark Anderson, treasurer.

"5 . . . 4 . . . 3 . . . 2 . . . 1 . . . fire!" These are sounds common to the launching field for Arcadia's Rocketteers. This unique club not only learns about rockets, but also each member builds their own. The launchings are then held, and the data gathered from them is utilized in future projects. The officers have done a remarkable job in scheduling the frequent speakers, movies, and also the lessons on safety rules.

This enterprising club served to encourage more students to become journalists by offering special recognition of outstanding efforts on the parts of students. The club stressed that the quality of the work is more important than the amount of work accomplished.

Ask anyone if they had fun at Legend City, and they'll tell you YES! One of the biggest events in the fall was Arcadia Day at Legend City sponsored by the National Honor Society. They painted pep posters, held bake sales, and had fund-raising drives for their activities.

"Where's the red? Do you have the blue? Oops! Wrong color!" Maybe the Art Club didn't have this much trouble doing their school spirit tags, but they had their share. All eighteen members participated in making the signs and in working on the scenery for the Fine Arts department. Sue Roper, president; Lynn Klemme, vice-president; Linda Kaufman, secretary; Dana Overmier, treasurer, helped to keep these activities running smoothly, along with the assistance of Mrs. Burrell, sponsor.

Activities

Activities are expressions of personalities. Often the most memorable parts of a school year are those experiences which lie outside the organized realm of classrooms and school functions. It is through such candid situations that we are able to discover the unique qualities of each of the individuals with which we come in contact.

Peace . . .
 That is my plea . . .
 I ask it humbly . . .
 I am not too proud to beg for peace . . .
 After all
 I'm just a lump of clay . . .
 Scooped out of the river bank
 and molded to the shape
 Of a natural man . . .
 I'm just a lump of clay . . .
 A handful of water and
 A fistful of sand
 And a warm exhalation from
 God . . .
 Fifty per cent
 God
 And fifty per cent
 Just plain old river mud, that's me . . .
 Sometimes I wonder if maybe
 God
 Isn't beginning to wonder
 If it wasn't all just a waste of breath
 On his part
 Mud being Mud
 God being God.
 I'm just a lump of clay . . .
 And I'm cornered
 And alone
 And Afraid
 But if you've listened to me
 If you will answer my plea—
 Do I have to be?

Sports

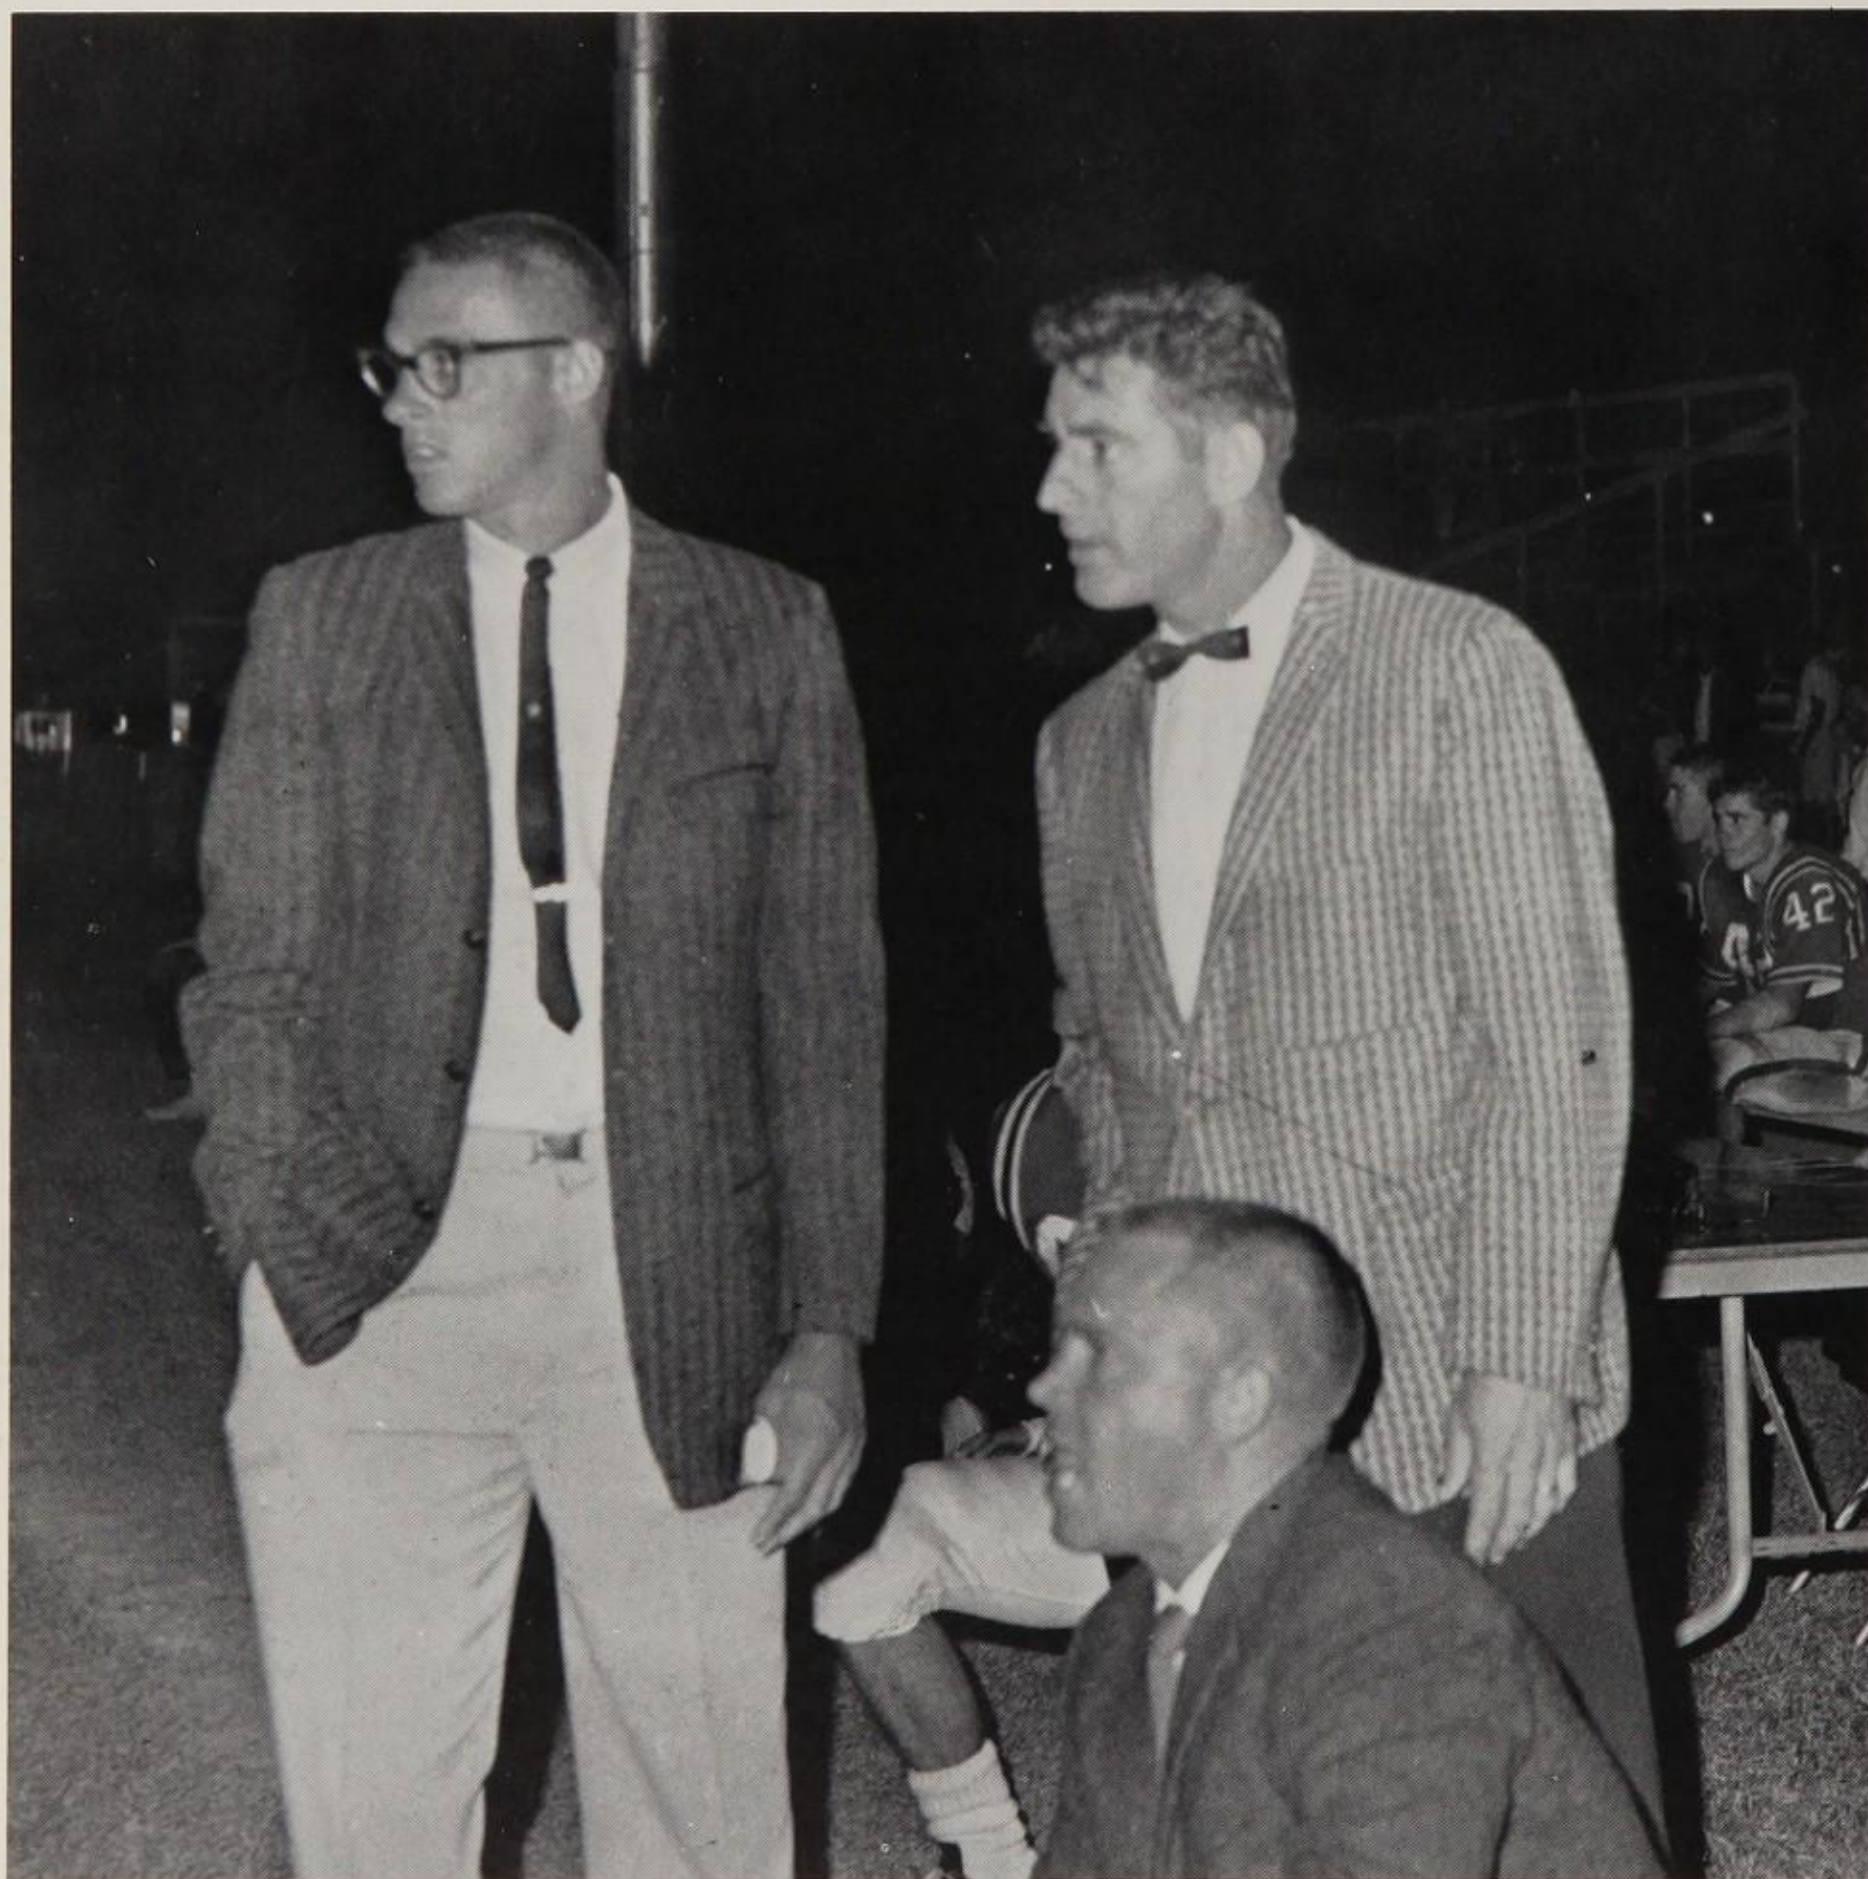

Sports offer a competitive challenge for those who are willing to accept strict training and hours of practice as part of their normal routine. These are the active participants, but there is more to sports than these few. No other area in school activities receives such enthusiastic and massive support. It is this combination of participation and support, not scores or rating, which makes sports a vital part of Arcadia.

5 Points Makes The Difference

The Titans needed five more points—only five points—and it would have changed the entire outlook on the Division One title for 1963.

Arcadia, ranked first in the pre-season polls by coaches, sportswriters, and broadcasters throughout the state of Arizona, dropped their first season game to second-ranked Mesa. Then Arcadia recovered by just slipping past Chandler. A heroic 55-yard touchdown run by quarterback Nicky Nichols saved the Titans.

Yuma Kofa fell second victim, and crosstown rival, Scottsdale, went down as always. Then Yuma upset Arcadia, 14 to 13. Tempe was held scoreless, 20 to 0, while Casa Granda never knew where the ball was; and Mesa Westwood spent two hours in their own end zone. Only Coronado tied the Titans, as both squads fought to a 6-6 deadlock. The season ended with a 6 win, 2 loss, 1 tie record—the third best Arcadia football season ever.

Arcadia's football coaching staff includes Ben Anderson, line coach; Lou Hallman, backfield coach; and Bob Hendricks, head coach. In the school's five-year history they have seen two state championship teams.

Mesa High eked out a 13-12 win over defending state football champ, Arcadia, October 20th in this year's most crucial Class AA Division One encounter. The Titans, ranked number one in the state by the Associated Press, scored both of their TD's on 70-yard drives, while the Jackrabbits scored their TD's after picking up Titan fumbles inside Arcadia's 20 yard line. The big boot was Mesa's third period extra-point conversion which turned out to be the winning margin.

Only Yuma stood between Arizona's 1962 championship team, and it was a 12-8 upset they handed the Titans during the Criminal's homecoming. This year they did just that—only this time it was Arcadia's homecoming. Not only did the disappointed fans see the Titans lose their first homecoming game since Arcadia was founded, but the rain nearly washed everybody out. It seems to always rain at Titan homecomings. Only last year's victory over Yuma Kofa was there no rain. Arcadia scored first on a 5-yard plunge by fullback Dana Woundenberg to make it 6-0 at the quarter. Then Yuma scored on a 14 yard pass play to Walt Perius, and then on a quarterback sneak. It was 14-6, Yuma, at the half. The Titans scored last on a 20-yard dive off tackle by Jimmy Spellman, who also ran over the extra point.

They opened their season with a victory over rival Scottsdale, and then lost to cross-town Coronado. It was to be their only loss, for they next defeated Maryvale, tied Carl Hayden, and won both of their final games—romping over North High from Phoenix, and winning their last game against a strong Tempe High team.

Arcadia Basketball at Its Best

The 1964 cage season at Arcadia was the best ever. Not only did the Titans finish with an impressive season (12-6), but they produced the best Arcadia basketball team since the school was founded. After finishing the season with the school's best cage season, the Titans advanced to the state tournament and faced powerful Camelback High, the Division

Three champions, and a strong favorite. Only luck, or fate, was with the Spartans that night for they came from behind in the final minute of the game to sink four straight free throws to pull ahead for the first time and win a 60-57 thriller. Weeks after the Titans defeated Chandler, 67-64, in a thrilling contest, the Wolves fell for the second time on Arcadia's home court, 63-54. This was sweet revenge for the Titans who lost twice to Chandler last year. Both John Van Reusen and Bill Blakely racked up a total of 30 points for the two games.

Dons Win Thriller In Overtime

The Coronado Dons stayed in Division One contention the hard way with a 73-70 overtime victory over the Arcadia Titans. Coronado, after dominating most of the first half, fell behind by 10 before scoring eight points in the last two minutes to tie the score at 68-68. All three of the Titans top guns fouled out—John Van Reusen, Bill Blakely, and Don Adler. Arcadia had trouble setting up an offense, and the Dons outscored the Titans 5 to 2 in the overtime to clinch the victory. Craig Darrington and Jeff Mackey paced the Dons' attack with 20 and 17 points, while John Van Reusen netted 27 points for the losers and Bill Blakely sunk 22. John Van Reusen also scored 27 during the Titans first loss to Coronado, 61 to 59.

"Where's the cropper? Throw me a ruler. Has anyone seen the senior layouts? Sorry, but this will have to be done over. But there's nothing more I can write about it! Don't forget we're working on Saturday." So went the conversation during those hectic months when "deadline" was the dreaded word that kept us going. The final deadline has come and gone, and, amazingly enough, we're none the worse for wear. As we prepare to send the final shipment of copy sheets, I am left with unpaid bills, piles of unused photographs, bulging wastebaskets, and a long list of thank you's.

At the top of the list is our advisor, Mrs. Logan, who is chiefly responsible for the fact that I emerged from this year with even partial sanity. She not only gave us moral support, but also piled up more working hours than the rest of us combined. Thanks cannot nearly express the appreciation and respect we have for her.

Next on the list is the entire '64 Olympian staff. Our book is a blending of all their ideas and efforts. They contributed more than a little time and patience to meeting deadlines and, more difficult yet, putting up with me. A special thank you here goes to Becky Johnson who devoted several evenings and many hours to writing our organization's copy, even before she joined our staff second semester.

Co-operation is a magic word in producing a yearbook, and we were fortunate enough to get plenty of it from all sides. The entire Arcadian staff, and especially Roger Sheer, helped make our task easier and much more pleasant. We are especially grateful for their willingness to make their last issue of the year a joint project of both of our staffs, in order to supplement our book. Also deserving of commendation for co-operation are the teachers, administrators and student body for their tolerance of our sometimes inconvenient picture taking and information gathering.

We greatly appreciate the gracious services rendered by our publisher, Taylor Publishing Company; Bob Wilcox Photography, who did the senior pictures and other professional photography; Robert Bailey Photography, who handled all underclass pictures; and the Phoenix Ramada Inn, which made its beautiful lobby available to us.

In concluding, on behalf of the entire staff, I wish to sincerely thank those who supported us most by buying our product, sight unseen. We've worked hard, and we hope you like the result of our efforts. We have tried to present the highlights of this year in order that you might enjoy them again, preserve them among your memories, and perhaps gain a little insight concerning yourself and others.
